## KENIA-TRON"63dB" INOX

## **MAIN ATTRIBUTES**

Hopper (1kg) made of unbreakable and non-deformable material (co.polyester), with fast lock system and self-levelling when off the coffee grinder, with the possibility of cleaning in a dishwasher at 90 °C. - Micrometric regulation of the coffee grind using a regulatory pawl. - New expulsion system for the ground coffee (always leaving the grinding cavity clean when the coffee grinder stops). - Touch screen for easy programming and use (Language selection – Setting the grinding program for each dose – Selection of 1 dose, 2 doses or continuous grinding – Coffee counter: total or partial consumption). – Integrated coffee tamper with stainless positioner. - Bodywork made of stainless steel, with ventilation system (internal air inlet and outlet). Large tray integrated into the body, ready to take knocks (portafilter). - Hardened steel grinding blades (62/65 HRc) of 60mm diameter. - Motor assembly with anti-vibration system. - Silencer motor with internal auto-ventilation, 63dB.

## Optional: Optional personalisation system with chrome plates on the doser and on the rear of the bodywork.
